Portfolio

Profile

A dedicated and detail-oriented web developer seeking to apply my skills in front-end development and my passion for building intuitive, user-centric applications. With a strong foundation in HTML, CSS, JavaScript, and experience in React and related technologies, I aim to contribute to meaningful projects while continuing to grow as a developer.

Education

Bachelor of Computer Applications

Maharishi Dayanand University

Haryana, 2021 – 2024

12th (P.C.M)

CBSE

Faridabad, 2020 – 2021

Projects

Portfolio (Personal Web Page)

A modern and responsive portfolio website built with React and Tailwind CSS, showcasing a collection of my web development projects and technical skills. The site features multiple colour themes, detailed project descriptions, and a sleek user interface, providing an engaging experience for visitors to explore key projects.

Grapes (Blog Posting Site)

Developed a blog platform where users can post thoughts, pictures, and videos, with Appwrite for backend services and user authentication. Integrated TinyMCE for rich text editing, deployed on Vercel, and used React Router and Redux for smooth routing and state management.

Technologies: React (Vite), TinyMCE, Vercel, React Router, Redux, Appwrite, Tailwind CSS.

AlgoInsight (DSA Learning Platform)

Created an interactive platform for learning key Data Structures and Algorithms (DSA) concepts, featuring intuitive examples for algorithms like Bubble Sort, Binary Search, and Dijkstra's Algorithm. Designed a clean, responsive UI with Tailwind CSS and used Prism for syntax highlighting in code examples.

Technologies: React (Vite), Tailwind CSS, DSA, Prism.

Resume Builder Application

Developed a React-based web application for creating professional resumes, with real-time previews of user inputs like education, experience, and skills. It generates a downloadable PDF with clickable links for projects and certificates, built using Vite and styled with Tailwind CSS.

Technologies: React (Vite), Tailwind CSS.

DripStreet (E – Commerce Platform)

Developed an e-commerce platform for fashion enthusiasts, featuring a user-friendly interface with sections for men's and women's apparel, and categories like t-shirts, pants, skirts, and shoes. Key features include a shopping cart, order management, responsive design, and a mock payment method for secure transaction testing.

Technologies: React (Vite), Tailwind CSS, Framer Motion.

Hard Skills

- HTML
- CSS
- JavaScript
- React (Vite)
- Tailwind

Soft Skills

- Problem-solving
- Attention to Detail
- Adaptability
- Collaboration
- Creativity
